Subject: Magellan St Joseph Terminal photolog
Attachments: Magellan St Joseph photolog 7-21-14.doc

Here's photolog for last week's inspection. Keep this file for future reference. I find it's easiest to use previous photolog as a template for creating new ones using "search and replace" feature in MSWord. Also resizing photos to proper size helps the process go quicker. I can go through this process when we pull info together for final report.
